Petition No 1029/2025 by M. M. (Spanish) on alleged dictatorial practices and electoral manipulation by the Spanish Socialist Workers' Party

The petitioner denounces alleged dictatorial practices and electoral manipulation by the Spanish Socialist Workers' Party. Specifically, the petitioner argues that there has been vote manipulation to win the party's 2014 primary elections and manipulation of postal votes in the 2019 general elections. The petitioner accuses the party of violating EU democratic values and calls on the European Commission to consider opening a formal investigation.

Recommendations

- Declare inadmissible: the matter does not come within the European Union's fields of activity, as defined in Articles 2 to 6 of the Treaty on the Functioning of the European Union (TFEU);
- inform the petitioner that national electoral matters are the responsibility of the Member States.
